Profiles Methodologies

The information presented in the School Profiles is divided into three major reporting categories: (1) Community Characteristics; (2) School Educational Process; and (3) Student Performance. Data are presented by the school site, school district, community group, and state. Not all data is available or shown at each level. A detailed explanation of the methodologies and sources used to develop and create the School Profiles can be found on the following pages.

The first page of the School Profiles presents the Community Characteristics. This statistical sketch provides information from a variety of sources, including the Oklahoma State Department of Education (OSDE), U.S. Census Bureau, and Office of Educational Quality and Accountability (OEQA) *Principal's Survey*. It should be noted that the U.S. Census data specifically represent those persons living within the school district boundaries.

The second page presents the School Educational Process. This section includes information on the credentials of teachers, the number of administrators and other staff, information on the various academic programs offered, and high school curriculum offerings. Additionally, a table in this section reports the amount of money the district spent in each of the major financial reporting categories.

The third page presents the Student Performance for Regular Education Students for the full academic year. The fourth page presents the Student Performance for all students. These sections contain information on test scores for the Oklahoma School Testing Program (OSTP). Additional data show graduation and dropout rates, grade point averages (GPA), ACT scores, scholarships, college-going rates, remedial course taking, college freshman GPA, and the number of degrees awarded in a given year.

Suspensions of 10 Days or Less

Principals were surveyed about the number of suspensions at their school during the school year with a duration of 10 days or less. This indicator was expressed as a ratio of fall

enrollment to incidents of suspension. Schools not responding to the OEQA *Principal's Survey* were not included in this calculation. [OSDE & OEQA]

Suspensions of More than 10 Days

Principals were surveyed about the number of suspensions at their school during the school year with a duration of more than 10 days. This indicator was expressed as a ratio of fall enrollment to incidents of suspension. Schools not responding to the OEQA *Principal's Survey* were not included in this calculation. [OSDE & OEQA]

Parents Attending Parent-Teacher Conference

Principals were surveyed about the percentage of students that had at least one parent or guardian attend a minimum of one parent-teacher conference. Schools not responding to the OEQA *Principal's Survey* were not included in this calculation. [OEQA]

Patron's Volunteer Hours per Student

Principals were surveyed about the number of volunteer hours at their school during the school year. This number was then divided by fall enrollment. Schools not responding to the OEQA *Principal's Survey* were not included in this calculation. [OSDE & OEQA]

Educational Process

Classroom & Administration Characteristics

Fall Enrollment

Fall enrollment counts reported by the school. Also known as the *October Enrollment/Student Counts* because it is reported to the OSDE in October. [OSDE]

Average Enrollment throughout the Year (ADM)

Also known as Average Daily Membership or ADM. The average number of students on the school roster throughout the school year. [OSDE]

Non-Special Ed. Teachers (FTEs)

Non-Special Ed. Teachers (job code = 210 or 213 except program code = 239) are counted. Full Time Equivalent (FTE) is based upon the percentage of the day spent in this capacity and contract length. [OSDE & OEQA]

Average Salary (w/ Fringe) of Non-Special Ed. Teachers

Teacher salaries are allocated to school sites based upon the percentage of time spent at each school site (the majority of teachers in the state spend 100% of their time at one school site). The total of all salaries paid to non-special education teachers are then divided by total non-special education teacher FTEs to obtain the average salary per non-special education teacher FTE. These figures include fringe benefits, but exclude extra duty pay and other salary. [OSDE & OEQA]

Non-Special Ed. Teachers with Advanced Degree(s)

Percentage of non-special education teachers with a college degree beyond a bachelor's degree. This calculation is weighted by teacher FTE. [OSDE & OEQA]

Average Years of Experience for Non-Special Ed. Teachers

Average is determined by weighting the average years of experience by the FTE for each non-special education teacher. [OSDE & OEQA]

Special Education Teachers (FTEs)

Special Education Teachers (job code = 210 or 213 AND program code = 239) are counted. FTE is based upon the percentage of the day spent in this capacity and contract length. [OSDE & OEQA]

Counselors (FTEs)

Counselors (job code = 203) are counted. FTE is based upon the percentage of the counselor's day spent in this capacity and contract length. [OSDE & OEQA]

Other Certified Professional Staff (FTEs)

All certified personnel except teachers, counselors, and administrators are counted. FTE is based upon the percentage of their day spent in these capacities and contract length. [OSDE & OEQA]

% of HS Juniors and Seniors Taking Career-Tech Offered Courses

Percentage of the high school juniors and senior that took courses offered by the Department of Career and Technology Education (CareerTech) during the school year. [CareerTech, OSDE & OEQA]

High School Graduates Completing Regents' College-Bound Curriculum

Principals were surveyed about the number of high school graduates completing the courses required for admission to Oklahoma public colleges and universities. This number was then

divided by the 12th grade fall enrollment. Schools not responding to the OEQA *Principal's Survey* were not included in this calculation. [OSDE & OEQA]

Average Number of HS Courses Offered by Site

Number of unique courses offered at high school sites (that have a 12th grade) during the school year. [OSDE & OEQA]

Sources of District Revenues (All Funds)

District Revenues

Percentage by source of new revenues received by the school district during the school year. Sources include District, County, State Dedicated, State Appropriated, and Federal. Bond proceeds are not used in these calculations. [OSDE & OEQA]

Estimated % of Bonding Capacity Utilized

A school district's Estimate of Needs contains various information, such as total property valuations, school bond issue amounts, and amounts paid toward these bond debts. This ratio is calculated as the total outstanding school bond principal (original issued bond principal - total paid bond principal) divided by estimated bonding capacity (10% of net assessed property valuation). [OSDE & OEQA]

District Expenditures (Bond Funds Excluded)

District Expenditures

Expenditures in each category during the school year are reported in two ways: (1) as a percentage of the total expenditures and (2) the actual dollars spent per ADM. Debt Service is accounted for separately as to not adversely impact expenditure percentages in other areas. [OSDE & OEQA]

Student Performance

Oklahoma School Testing Program (OSTP)

The State of Oklahoma employed a series of standardized tests for grades three through eight and 11th grade to assess students on the newly adopted *Oklahoma Academic Standards*. OEQA summarized the students' Oklahoma School Testing Program (OSTP) performance in two ways for all reporting levels: (1) Regular Education Students (Non-English-Language Learners and Non-Special-Education Students) who were in the same school sites for the full academic year and (2) all students who took the tests. The results are shown as a percentage of students who scored Proficient and above by grade and subject. [OSDE & OEQA]

Additional High School Performance Measures

Senior Graduation Rate

Senior graduation rate is computed by dividing the number of graduates by the sum of the graduate count plus senior dropouts. It is assumed that the denominator accounts for all seniors except for those who were dropped from the rolls for legitimate reasons. [OSDE & OEQA]

4-Year Dropout Rate

The four-year dropout rate for a given graduating class is generated by dividing *Total Dropouts* by the sum of their graduates plus *Total Dropouts*. *Total Dropouts* for a graduating class is calculated by adding the dropout counts for the 9th, 10th, 11th, and 12th grades over the previous four-year period. It is assumed that the denominator accounts for all members of the graduating class except for those who were dropped from the rolls for legitimate reasons. [OSDE & OEQA]

Average GPA of HS Seniors

Principals were surveyed about the Grade Point Average (GPA) for their school site's senior class. A weighted average based on 12th grade fall enrollment count was used for all comparative averages and for districts with multiple high school sites. Schools not responding to the OEQA *Principal's Survey* were not included in this calculation. [OSDE & OEQA]

Average ACT Score of HS Graduates

The average ACT score of all high school graduates in the district who have taken the ACT any time during their high school career. A weighted average based on the number of students who took the ACT was used for districts with multiple high school sites. If a student

took the ACT test more than once, only the best score was used for the average. [Oklahoma State Regents for Higher Education (OSRHE)]

% of Graduates Earning the Oklahoma’s Promise Scholarship

Percentage of graduates that earned the Oklahoma’s Promise scholarship by the end of the school year. Please visit <http://www.okhighered.org/okpromise/> for more information. [OSRHE]

Out-of-State College-Going Rate

Principals were surveyed about the number of high school graduates who planned to attend out-of-state colleges. This number was then divided by the number of graduates. Schools not responding to the *OEQA Principal’s Survey* were not included in this calculation. [OSDE & OEQA]

Oklahoma College-Going Rate

OSRHE developed a methodology to track the graduates of Oklahoma’s public high schools and calculate the percentage of these graduates who enrolled in any public or private colleges/universities in Oklahoma within one year after their high school graduation. The most current data compiled by the OSRHE typically covers the same time period in the college system as the School Profiles’ reporting period; therefore, its most recently tracked high school graduating class is one year behind that covered by the School Profiles reports. OEQA presents this information as an average of three high school graduating classes. [OSRHE & OEQA]

Oklahoma College Freshmen taking at least one remedial course in Math, English, Science, or Reading

OSRHE determines the percentages of public high school graduates who enrolled at Oklahoma’s public colleges/universities in the fall semester immediately following their high school graduation and had to take at least one remedial course in Math, English, Science, or Reading. The most current data compiled by the OSRHE typically covers the same time period in the college system as the School Profiles’ reporting period; therefore, its most recently tracked high school graduating class is one year behind that covered by the School Profiles reports. OEQA presents this information as an average of three high school graduating classes. [OSRHE & OEQA]

Oklahoma College Freshmen with GPA 2.0 or Above

OSRHE’s calculation includes public high school graduates who enrolled at Oklahoma’s public colleges/universities in the fall semester immediately following their high school graduation. The GPA is determined by the grades received only in college freshman-level courses taken during the first year of college and/or the junior and senior years of high school. The most current data compiled by the OSRHE typically covers the same time period in the college system as the School Profiles’ reporting period; therefore, its most recently tracked high school graduating class is one year behind that covered by the School Profiles

reports. OEQA presents this information as an average of three high school graduating classes. [OSRHE & OEQA]

Average Number (by Site) of Oklahoma College Degrees Conferred to HS Graduates

Number of degrees conferred by Oklahoma public colleges/universities to high school graduates of a particular high school site and the average number for districts with multiple high schools. This number includes all graduates receiving degrees in a given college year regardless of high school graduation date. The degrees counted are bachelor's degree, master's degree, doctorate degree, first professional, associate's degree creditable toward bachelor's degree, and other formal recognitions toward bachelor's degree. [OSRHE & OEQA]

Community Group Model

Community Group Model

OEQA employs a “Community Grouping Model” that utilizes a district’s Fall Enrollment and the percentage of students that are eligible to participate in the federally funded Free and Reduced Payment Lunch Program. The Free and Reduced Payment Lunch Program is based on the income of the student’s parents and serves as a good measure of poverty within a district.

Community Grouping for Non-Charter School Districts

Community Grouping for Charter School Districts

There are a number of charter schools in Oklahoma. These schools are sponsored by various entities and often serve a specific population or area. They also have particular missions and goals. Moreover, charter schools are funded differently than traditional public schools. Because of these diverse characteristics, it is difficult to compare charter schools to other public schools. Therefore, OEQA groups all charter schools into two “Community Groups”:

- VT: Non-Virtual Charter School Districts.
- VZ: Virtual Charter School Districts.
